## **July 2026**

---

*CALI Tech Camp was a success. Big thanks to our camp staff - Jeff, Parkey, Adam, Eddie and James Speed! Thank you so much to all of our amazing parents, reps and coaches for all the support, delicious snacks and meals. We made huge improvements day by day and set the tone for a great summer, with solid technique and precision. After the break, we'll begin choreography camps and jump right into routines!*

### **WEEKEND PRACTICE SCHEDULE:**

Weekend practices will begin toward the end of summer, so please plan for them to start after Labor Day. We should have a schedule out before the end of the month. The third practice for our elite teams is an important one....it helps reinforce all the hard work put in during the week. Stunts start hitting solid, formations become seamless - and the reps begin to pull it all together. We're so excited for what's ahead this season! Look for a practice calendar this month.
